

Independent Study Project Bibliography

On or before your scheduled due date for phase two of your I.S.P., you will be asked to submit an annotated bibliography about your chosen political issue. The bibliography should include ten to fifteen resources from a **variety of media** (internet AND books AND government publications, etc). The “annotated” part of this phase means that you will evaluate each source that you list in your bibliography. Detail in a short paragraph the source’s accessibility, quality and quantity of information, and whether you will be able to use the information in your final paper. If you find a source that you must return before completing this assignment, be sure to get all of the referencing information from that source so that you may properly identify the source of any ideas, quotes, graphs, and pictures that you might use in your final submission.

Pay special attention to the **format** of your bibliography. You must include all of the proper referencing information for each item listed and put them all in **alphabetical order** by author’s last name. Here are some sample references to use for each item in your bibliography:

Last Name, First Name. (Year of Publication) *Title of Publication*. City of Publication:
Publisher.

Marlatt, Craig. (2005) *Politics I.S.P. Bibliography*. Whitby, ON: Anderson Collegiate Vocational Institute.

Here are some places to begin looking for relevant information about your issue:
