

# Independent Study Project Conference

---

In order to assure me that you are well on your way to completing your research for this assignment, you will be expected to explain to me one on one what you have discovered about your issue so far, and how you are going to complete your research by your final due date. The conferences will happen by appointment during the week of your phase three due date. Schedule your appointment before that week to ensure you get a time slot. Your instructor is not necessarily available to meet with you at your leisure.

During your conference, you will be expected to explain a brief background of your issue, your working thesis, your main arguments, and the conclusions, implications and recommendations that your paper will state on the issues being discussed.

## **Notes in Preparation for the Conference**

Background Information:

Thesis Statement:

Arguments to Prove Thesis:

Conclusions, Implications, and Recommendations:
